## PROFESSIONAL PROFILE

I am a dedicated and detail-oriented graduate of Bachelor's degree in Economics and Finance. Throughout my academic journey, I have had a solid understanding of Economic research,Financial analysis, budgetting, and data analysis. I have practical experience working as a web researcher on companies at CloudFactory, where I handled data such as mergers and acquisitions and annotation tasks for important clients. I am skilled at following strict guidelines and meeting tight deadlines to ensure accuracy. My academic background has equipped me with strong analytical and problem-solving abilities, as well as proficiency in essential tools and technologies for content evaluation. I am detail-oriented,capable of interpreting complex requirements. I am passionate about creating safe and engaging online environments, making me a well-suited candidate for content moderation roles.

## CORE SKILLS

- Financial and economic research
- Problem-solving and innovation
- Data analysis and projection
- Analytical thinking and critical analysis
- Adaptability to new tools and technologies
- Attention to detail and accuracy
- Collaboration and communication skills
